

Learn how surveyed Walmart customers plan to set their students up for success

Source: 2021 Deloitte BTC Survey; NRF Back to School 2021.

Customers' top reason to shop at Walmart continues to be Everyday Low Prices for Back-to-School / College shoppers

The majority of Back-to-Class Walmart shoppers surveyed are more concerned about their budgets now than they were a year ago. Inflation and rising prices of products are top of mind this year.

Back-to-Class at Walmart

From July through the beginning of September, Walmart's full-funnel marketing campaign aims to offer customers smart solutions at a price they can afford for their everyday needs during the Back-to-Class shopping season.

We're creating inspirational ways for customers to shop and prepare—including a cross-category Back-to-School site experience. Promotions will appear in national media, in-store and online, paid and organic social content, influencers, celebrity ambassadors and parking lot activations.

Seasonal Tips & Perennial Best Practices

D :					•
Dι	sp	lav	am	pa	ign
		- 7			

Dispi	ay Campaign ————————————————————————————————————					
	Seasonal tips: Make sure your creative speaks to the season and align flight dates with key moments.					
	•					
Searc	ch Campaign					
	Seasonal tips: Use the Item Keyword Report to search harvest keywords. Expand your reach, if your item qualifies, by using relevant, seasonal keywords and top-trending keywords.					
	Best practices:					
	 Relevant, complete item pages assist the algorithm in finding your products and help improve visibility and sales. Regularly optimize product titles, descriptions, images and key features. 					
	 Keep your ads available all day long with higher daily budgets for customers researching online prior to making their purchases. Use automated rules to trigger notifications for budget adjustments and when campaign budgets have capped out. 					
	 Use the Suggested CPC feature for competitive bidding guidance. 					
	 Tier your bids by match type. Bid lower on broad-match, higher on exact-match, and in the middle on phrase-match. Then, adjust your bids as necessary based on performance. This strategy can help create efficiencies and minimize waste. 					
	 Enable item page placements for new products. These placements are less competitive than in-grid placements and can help products gain maximum visibility. 					
	 Bid high to increase the likelihood that you will secure top-of-search placements. For each placement, the auction winner pays only the amount necessary to win based on competing bids, which may be less than the winner's maximum bid. Bid heavier on high- traffic keywords. 					
	 Use bid multipliers to increase your chances for top-performing placements and platforms. 					
	 Focus your highest bids on keywords and items you want to defend and win the most searches on, as this will protect your share and continue driving sales. 					
Guida	ance for Advertisers using API Partners ————————————————————————————————————					
	Include top-selling, promotional, or high AUR items in your Manual ad groups.					

QA your campaign structure to ensure you're set up for success before peak periods.

Use your partner's automated tool to optimize your campaigns and bids at scale.
